Designed to be... Predictable.

Plug the Reliance in and begin experiencing years of trouble-free service. Trust in the developer friendly environment that customers all around the world have been accustomed to. From the esthetically pleasing design to its robust form factor, Reliance couples art with functionality in a thermal printer design that only Pyramid could produce. Experience the advantage that others in the industry have come to rely on. Reliance is your thermal printer of choice.
Operating Voltage: 24 Volts AC ± 10%
Idle Current: 150 mAmps
Operating: 6 Amps Maximum (2.2 amps draw at a 50% Print Rate)
Weight: 1.22 Kg
Operating Temperature:
0 to 60 Degrees Centigrade
(-20 to 60 Degrees Centigrade Option Available)
85% Non-Condensing Humidity Maximum
Print Speed:
Greater than 220 mm per Second
Eject and Retract Speed Greater than 1000 mm per Second
Paper Detection:
Paper Low on Roller, Paper Empty and Paper Notch Detection

Accessories:
Paper Holder Arm with Paper Low Sensing
Serial RS-232 (DB9) Harness
USB Communication Harness
24V DC Supply
